

Dry Freight Van Body

Every detail in our van bodies are built with you in mind. From stainless steel door frames and composite doors that never fade, chip, or need painting, to hardwood floors, translucent fiberglass roofs, and indestructible composite liners that help you get the job done. Whether it's our consistent high quality at a reasonable price, or our commitment to green manufacturing, we do things the right way. Our attention to detail and quality craftsmanship are second to none. Summit isn't the biggest, just the best.
